MasterCue V7

MasterCue V7—is Our flagship system for event cueing of presentation slides.

MCV7 has 6 USB ports with independent "port enable" buttons so you can select the correct computer for the correct presenter.

MCV7 has Ethernet, each main unit has its own webpage so you can set up the functions for it remotely and see the actions (cues) made. The RF receivers can be connected on PoE Ethernet on the local LAN for easy deployment.

When connecting Multiple systems on the same LAN, you can configure each system to operate independently to each other.

Our Own network - i2Net- is included to operate the Wired button and Lamp. The whole MCV7 system can run on i2Net to provide a degree of simplicity using multidrop topology with the extended cable range of up to 1 mile (1500m)

MCV7 continues and expands the MasterCue values from the very first one ,25 years ago.

√   Remote RF receivers (x2 for diversity)
√   i2LP lamp, for confidence to the user all is working
√   i2WB Wired button, you would not use wireless mics with out a wired back up.
√   Comms 4 pin and 5 pin on hum free connections.
√   Mic stand fitting on Rf receivers

3 Year Limited Factory Warranty

Specifications

Power
Universal mains in 100V to 264VAC 30W
Line out power on i2Net 28V 20W

Signals
USB, i2Net, Ethernet, PoE Ethernet

Dimensions mm (inch)
D x W x H

Main unit (controller)	110 (4" 5/16) x 225 (8" 7/8) x 115 (4" 1/2)
964g (34oz)	
RF receiver	95 (3" 2/4) x 55 (2" 1/8) x 190 (7 1/2")
395g (013 7/8oz)	
i2Net Lamp (i2LP)	60 (2" 3/8) x 102 (4" 1/16) x 70 (2" 3/4)
168g (6oz)	
i2Net Wired button	35 (1" 3/8) x 50 (2" 3/16) x 85 (3" 3/8)
114g (4oz)	

Weight each

Note XLR cables are not included as standard.

Cueing with Confidence

mic Strand not supplied

Accessories
Included with the MCV7
4 and 5 pin coms cables, Wired button, Confidence lamp, 6 USB cables, Mains cable,
Note: you will need your own intercom system fully installed.

Note

MasterCue V7 has been in design for many years. It has been designed to work with Ethernet systems and it is a requirement of sale that the user / technician understands Ethernet practises.

If you do not need Ethernet then look at the MicroCue3 as the V7 will provide a layer of technology you may not need.
